## Selectmen's Report

---

In submitting our annual report we admit that we have not done as much work upon some of the highways as we intended doing at the beginning of the year.

The high cost of labor and the inability to procure materials is the reason we did no work on the macadam road in the East part.

The road is in very good shape and has stood the wear well but should be repaired in places this coming year.

We carried out the vote of suggestion passed at the annual town meeting and hired Mr. John Finn as road man for three months and were well pleased with the work accomplished.

Brush was cut, railings put up, culverts repaired and much needed work was finished that perhaps would have been neglected.

## Report of the Superintendent of Schools

---

Gentlemen of the School Committee:

It gives me pleasure to submit to you this, my first, annual report as superintendent of schools of the town.

Whereas my term of service began in May, therefore the report has reference to the time since that date.

### TEACHERS

Considerable difficulty was experienced in finding suitable teachers to take the places of Miss Flynn and Miss McNaught at the East School, and of Miss Sinclair at West Whately. These positions were filled by the appointments of Miss Martha Perry, of Westfield, for the East Primary; Miss Edith Kloetzle, of Rome, for the East Intermediate; and Miss Anna Dooley, of Northampton, at West Whately. After only a few weeks of service Miss Kloetzle resigned to take a more lucrative position in Athol and Miss Dooley resigned on account of ill health. Miss Dorothy Campbell, of South Deerfield, has been engaged for East Whately, and after several trials, Miss Isabel Allis, of Whately, has been secured for West Whately. The Center School was fortunate in retaining both its teachers of the previous year. Each

teacher is doing most satisfactory work. Whately is fortunate in retaining the services of so powerful and interested worker as Miss Smith, who is inspiring her school within these desire for progress, and with a spirit of patriotism, throughout these war times, which will have a life-long influence in the characters of her pupils.

## WAR AND INFLUENZA

The war and influenza have produced a situation of serious difficulty in attaining satisfactory progress in the schools. Schools had been running for only four weeks when the East schools were closed to prevent the spread of the epidemic. Later on the Center and West schools were closed for the same reason. When the schools reopened many children were kept out on account of sickness with influenza of other members of their families; some stayed away for fear of contracting the disease and a few took advantage of the irregular condition to stay out to work.

## SALARIES

Last year the General Court passed a law requiring all towns of over one million dollars' valuation to pay their school teachers \$550 or over per year. This does not apply directly to the Town of Whately but indirectly it does as teachers will go to the town paying the larger salaries. The increased cost of board has made it necessary to raise the salaries of teachers and in order to retain our good teachers, salaries will have to be raised still more.

## ACCOMMODATIONS

When the schools opened in September both the Primary at the Center and at the East were overcrowded. At the Center the problem was solved by having the first and second grades attend in the morning and the third and fourth in the afternoon. This plan has worked satisfactorily, but should not be continued indefinitely. At East Whately, there were over fifty children in the first and second grades, nearly half of whom could not speak the English language. As these children demand considerably more than their per capita share of the teacher's time it was decided to add an assistant, in which capacity Miss Nellie Williams has been serving. The increased amount of attention by the teachers is having a desirable effect upon the progress of the pupils.

The question if more adequate school accommodations in Whately is urgent.

If that group of children who live near the South Deerfield line could be cared for by South Deerfield the situation would be relieved so far as East Whately is concerned. In order to give the needed relief at the Center an addition to the present building would be most desirable. If this cannot be had at present, perhaps a room may be secured which will be suitable for a class room.

## LANGUAGE

The Town of Whately has a large non-English speaking population. In order to enable the children of these people to become more intelligent Americans the schools must train them to read the English language with ease and pleasure. If they are able to get thoughts from the printed page readily, the pleas-

ure of reading will soon follow. Teachers who are able to develop successfully this ability and to inspire pupils with the desire to read much good material are doing a great service to the pupils of the schools. The study of English should occupy the most prominent place in our school program.

### PATRIOTIC PROGRAM

Loyalty and patriotism are instilled by the school group to a remarkable extent. Observance of National holidays by appropriate exercises introducing singing, reading, flag drills and dramatic representations, is a well established custom which should be maintained steadfastly.

The conditions brought about by the war gave the schools an extraordinary opportunity to inculcate the spirit of patriotism and helpfulness toward others. The pupils of the Center School have bought a large number of Thrift and War Savings Stamps and this school ranks among the first in the state in this work. Both primary and grammar rooms have 100 per cent membership in the Junior Red Cross and also in the Victory Boys and Girls.

The following table shows in detail these children's participation in War Work.

## Report of Supervisor of Music

---

Dear Sir:—

Music in schools as well as elsewhere has been largely patriotic this last year. The National anthems of England, France and Belgium have been taught and sung, our own receiving particular notice. There is now a standardized version of "Star Spangled Banner," differing somewhat from the way it is usually sung, which supervisors have been asked to use in their schools and to present when opportunity is offered to the public.

We were also asked to teach and sing the camp songs which are sung by our soldiers here and overseas. These songs filled in well during the Fall and early Winter when schools were so broken up and aroused much enthusiasm and interest. Now that attendance is becoming normal, attention will be given the regular technical work required in each grade, which would ordinarily at this time of the year be completed.

Respectfully yours,

BELLE T. BULLIS,

Supr. of music.
